

TECHNICAL DESCRIPTION

Rain sensor with receiver.

The receiver is provided with a relay output and buzzer.

If wanted, the buzzer can be deactivated.

The relay output can be set into automatic or manual reset.

The sensor surface is heated to prevent it from staying moistures.

TECHNICAL DATA

Power supply	Max. 15 - 30VAC/DC
Installation (receiver)	DIN-rail mount
Maximum cable length from sensor to receiver	200 m
Sound volume buzzer	85 dB
Response time	< 1sec.
Consumption (receiver)	50mA
Consumption (sensor)	40mA

FUNCTIONAL DATA OUTPUT

Outputs	1 x switch over contact
Relay contact	Potential free
Switch current	12A @ 230VAC

ALGEMEEN

Warranty	1 year
Operational temperature (receiver)	0 - 40°C
Dimensions LxWxH (sensor)	70 x 43 x 30 mm
Number of DIN-rail modules 18 mm (receiver)	3,5

AANSLUITSCHEMA
